Eastern Seaboard Has  
Cooler Weather After In-  
tense Heat Wave

(International News Service)

Showers and cooling winds to-  
day broke the heat wave that  
has wracked the nation for a  
week, causing some four score  
deaths.

Strong rains during the night and  
early today brought quick relief to  
virtually every section save the mid-  
west, where temperatures still clung  
around 80 degrees, with little change  
forecast for the week-end.

The eastern seaboard was enjoy-  
ing comparatively comfortable weath-  
ere today in the wake of general  
rains. In the New York area, where  
sixteen have died within the past  
week, the temperature dropped  
sharply to 74 after a record 91.4  
degrees yesterday.

Cooler In East

New England, where 12 persons  
died within the last 24 hours, also  
benefitted by rains with cooler weath-  
er forecast for the week-end.

Pennsylvania, which reported  
eight heat deaths, saw the mercury  
drop today, after hitting 93 yester-  
day. Cooler weather for tomorrow  
was predicted. Washington, where  
a 1935 record of 96 degrees was  
hung up yesterday, got relief from  
the heat and congressional oratory  
simultaneously, the mercury drop-  
ping to 73 today.

Chicago got little comfort from  
the weather man. Temperatures  
around 80 mark, where they have  
hung for several days, were  
predicted, although the mercury  
dropped to 72 this morning.

Michigan, where four deaths were  
reported, was somewhat better off,  
the temperature dropping from 91  
to the low 80's today.

Under a resolution introduced by  
Director Roy W. Hazen, Friday  
night at the meeting of the school  
board, all teachers of the New Cas-  
tle schools will return to the Ed-  
monds Act schedule of salaries this  
year. Other employees not under the  
Edmonds Act will return to a basis  
of salaries they received in 1932 and  
1933 when the cut was made.

The resolution brought out a lot  
of discussion, one of the things be-  
ing discussed was those teachers of  
the Senior high school who are re-  
ceiving \$200 over the maximum of  
the Edmonds Act.

"What about these teachers?" said  
Hazen. "Are we to continue them at  
the scale above the Edmonds Act."

### Philadelphia Water Supply Is Conserved

Supply Low In Reservoirs  
And Use Being Closely  
Guarded

(International News Service)

PHILADELPHIA, July 13.—Water  
—a curse but two days ago as rivers  
and streams leaped their banks  
flooding wide areas of the city—  
today was so low in reservoirs that  
the city faced the most dangerous  
fire hazard in recent years.

As policemen, acting on orders of  
fire officials, maintained a con-  
stant vigilance to keep youths from  
opening fire hydrants for street  
showers, the city and environs  
counted five dead from heat pros-  
trations and three others drowned  
during the heat wave of the last  
48 hours.

The death toll was expected to  
rise as hospitals reported hundreds  
of prostration cases.  
Among those who died from heat  
exhaustion was Albert A. Oland, 51,  
retired Philadelphia broker, and  
brother of the noted film star, War-  
ner Oland. He was found dead in the  
orchard of his farm at Pitman,  
N. J.

Four others died from heart at-  
tacks superinduced by heat as the  
mercury climbed to 93 for the sec-  
ond successive day. Thunder show-  
ers were expected to bring relief.

### BODY OF MAN IS RECOVERED TODAY

TOWANDA, Pa., July 13.—Found  
two miles down the river the body  
of Jacob Burkhardt, 45, of Sayre, who  
was drowned in an attempt to re-  
scue four boys marooned on an is-  
land during the recent flood, had  
been recovered today. The body of  
his companion, George Sargeant, Jr.,  
15, who was drowned at the same  
time is still missing.

### RETURN TROUT TO HATCHERIES

ALLENTOWN, Pa., July 13.—More  
than a million trout swept from the  
Trexler fish hatchery along Little  
Lehigh river by the recent floods  
provided excellent catches for  
sportsmen in this region today.

Approximately 5,000 trout, found  
alive in pools in fields and meadows  
after flood waters receded, were re-  
scued and returned to the hatchery  
by game inspectors.

### Austrian Chancellor Is Hurt In Crash As Wife Is Killed

By ALFRED TYRNAUER  
International News Service Staff  
Correspondent

VIENNA, July 13.—Two weeks less  
than a year after the assassination  
of his predecessor, Chancellor Kurt  
Schuschnigg narrowly escaped with  
his life today in an automobile ac-  
cident which resulted in the death  
of his wife.

The chancellor was seriously in-  
jured, but is expected to recover.  
Little hope is held out for the re-  
covery of his son, Kurt, Jr. Their  
car crashed into a tree at Ebelsberg  
near Linz.

It was on July 25, 1934 that Schus-  
chnigg's predecessor in office, the  
late Engelbert Dollfuss, was mor-

tally wounded during an attempted  
Nazi coup d'etat.  
A little group of Austrian Hitler-  
ites seized the Vienna broadcasting  
station, sent out a false announce-  
ment the government had resigned  
as a signal for a nationwide upris-  
ing, and shot Dollfuss when he re-  
fused to bow to their demands. He  
died a few hours later.

The accident occurred as Schus-  
chnigg, with his wife, Herma, and  
his son were being driven from  
Vienna to St. Gilgan for their sum-  
mer vacation.

The chauffeur apparently lost  
control of the car. It swerved off  
the road and crashed head-on into  
a tree. The chauffeur and a detec-  
tive riding in the front seat with  
him were both seriously injured.

Deputy Holtz MRS. WALEY

Fear of William Mahan, former convict hunted as one of the kidnappers of nine-year-old George Weyerhaeuser, caused her "passive partici-

court at Tacoma, Wash. The 19-year-old defendant is pictured, right,

TACOMA, Wash., July 13.—Con-  
trasting predictions on the  
fate of Mrs. Margaret E. Waley,  
19, accused of participation in  
the \$200,000 Weyerhaeuser kid-  
naping, were made by opposing  
counsel today as the twelve  
jurors awaited submission of the  
case by Federal Judge E. E.  
Cushman.

"Mrs. Waley can expect nothing  
worse than a jury disagreement,"  
said John F. Dore, ex-mayor of Se-  
attle, and the Northwest's most fa-

defense forces.

"The jury will be out no longer

### Governor Approves Income Tax Law

First Payment Is Called For  
Next May If Supreme Court  
Upholds Measure

(International News Service)

HARRISBURG, July 13.—The ad-  
ministration's graduated income tax  
bill became a law today, designed to  
yield \$25,000,000 in the next two  
years for increased public school  
subsidies to make possible reduc-  
tions in local school taxes.

Gov. George H. Earle signed the  
measure along with 28 other mis-  
cellaneous bills to reduce the num-  
ber of measures before him for ac-  
tion to 286. Two of the other bills  
were companion measures to the in-  
come tax act.  
First payment of the state in-  
come levy is scheduled next May by  
all persons earning more than \$1,000  
if single or \$1,500, if married, during  
1934. A supreme court test of the  
graduated feature of the act must  
be made first, however, before the  
tax becomes due.

### New Deal Political Strategists Gather In Council Of War

high command, headed by Pres-

most of the New Deal's political  
strategists, will assemble today

### Tax Decision Given By Court

County Has Power To Strike  
Off Delinquent Tax  
Penalties Is Decision

CASE WAS FILED  
TO CLEAR ISSUES

In a decision handed down today  
Judge James A. Chambers clarifies  
the recent tax penalty legislation  
passed by the General Assembly.  
Briefly the decision empowers the  
county commissioners to strike off  
all tax penalties and interest due on  
unpaid taxes prior to and including  
1934, with the exception of the five  
per cent allowed the delinquent tax  
collectors.

The case was filed some weeks ago  
by County Commissioners P. O.  
Elder, A. E. Conner and F. R.  
Woods, against R. C. McCaslin, Jr.,  
County Controller. W. O. Pitts,  
County Treasurer, E. E. Unbricht,  
Delinquent Tax Collector, W. J.  
Graham, Constable, George T.  
Weingartner and John W. Cox, tax-  
ables. It was filed for the purpose  
of clarifying the law insofar as  
Lawrence County was concerned.  
Under the Act of 1934, the so-called  
Venango County Act, which governs  
Lawrence County there is some dis-  
crepancy in procedure than in other  
counties of the state.

The first act of May 1, 1935 per-  
mitted the county to abate tax pen-  
alties, only if all the 1935 taxes were  
paid in full. On June 22 the act was

### Heat Wave Is Hanging On

(International News Service)  
Sweltering masses, anxious  
to escape Pennsylvania's heat  
wave, took to its highways to-  
day for a week-end and sum-  
mer resorts.

Despite expected showers  
needed to check the rise of  
mercury which hit nearly 95  
in many places yesterday, a  
brilliant sun sent the therm-  
ometer soaring again today.  
Pennsylvania's death toll  
from the heat, now at eight,  
continued to soar with many  
victims expected unless  
relief comes over the week-  
end.

Pittsburgh and Philadelphia  
sweltered under 93 degrees  
yesterday while Harrisburg  
found 94 extremely oppressive.

As Death Buyer

MRS. BLANCHE DUNKEL

In Chicago police station where  
she is alleged to have confessed hir-  
ing Chinese to kill Ervin Lang, her  
son-in-law, for \$500, Mrs. Blanche  
Dunkel is pictured above. The con-  
fession stated Mrs. Dunkel bargained  
with a white woman who was liv-  
ing with a Chinese to have Lang "re-  
moved." Lang's legless and other-  
wise mutilated body was found on a  
prairie near Hammond, Ind. One  
police theory was that Mrs. Dunkel  
blamed Lang for her daughter's re-  
cent death.

to her grave on the 12th anniversary  
of her death today and then com-  
mitted suicide.

Standing over the grave, Muehl-

Muehlhauser, who has been in poor  
health, recently was told a major

### Former President Hoover Causes Stir In Political Circles

(International News Service)

PALO ALTO, Cal., July 13.—  
Rumblings caused by former Pres-  
ident Herbert Hoover's sharp ad-  
dress yesterday at Stanford Univer-  
sity commencement day exercises  
reverberated today in political cir-  
cles, presaging a bitter presidential  
campaign in 1936.

Mr. Hoover, speaking to an audi-  
ence of more than 15,000 including  
699 Stanford graduates, outlined a  
nine-point program for social secu-  
rity in America, based fundamentally  
on individual freedom.  
His address contained several

barbed criticisms of administration  
policies. At one time he referred to  
"boothouse policies." Another jibe  
was at governmental "pollution of  
free press and free thought." At an-  
other point in his address he de-  
clared referring to recovery, there was  
a "babel of tongues" prevalent to-  
day.

Essentials Outlined  
The nine points of Mr. Hoover's  
program, given in his address en-  
titled, "The essentials of social  
growth in America," were:  
1. Guarantee freedom of speech.

### Registration Dates Are Set In New Castle

Three Days In August  
Designated For Perma-  
nent Registration

LAUNCHING NEW  
PROGRAM IN CITY

August 8, 17 And 28, Are  
Selected By County Offi-  
cials After Conference

At a meeting of the county  
commissioners on Friday  
afternoon with County Soli-  
citor William McElwee, Jr.,  
the dates for registration in  
New Castle were set. The  
days and dates are Thurs-  
day, August 8, Saturday,  
August 17, and Wednesday,  
August 28.

This registration will be a perma-  
nent one and voters who register  
on either of these three days will  
then be registered permanently.  
However, if they move out of the  
district or fail to vote within two  
years, they must register again.

Registry Commission

The registration days were set by  
the county commissioners following  
the passage of a recent act of the  
General Assembly, providing perma-  
nent registration for cities of the  
third class. A registry commission  
is also authorized which will take  
the registration of voters out of the  
hands of precinct registrars.

The county commissioners will act  
as the board of registration, and a  
chief clerk will be appointed to  
handle the work. However, the  
three registration days in August  
will be done by the precinct regis-  
trars. On Monday, The News will  
run a list of the registrars who  
have been appointed.

It was necessary to set all the  
registration days in August as the  
law provides that everything must  
be finished by September 4. Notices  
of the registration time will be  
made later by the commissioners.

### Col. Dreyfus Will Be Buried Sunday

Death Takes Central Figure In  
One Of History's Great-  
est Frame-Ups

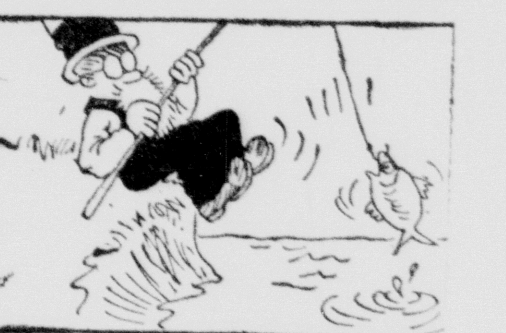

(International News Service)

PARIS, July 13.—Col. Alfred  
Dreyfus goes to his grave tomorrow,  
but the central figure in one of  
history's greatest frameups may  
play, in death, one last important  
role in his country's affairs before  
the pages of the famous "Dreyfus  
case" are closed.

Three hundred thousand troops  
with full war equipment were ready  
in Paris today to cope with trouble  
that may arise through the coinci-  
dence of Dreyfus's funeral and rival  
right-and-left-wing demonstrations  
for Bastille Day—France's "Fourth  
of July."

Radical groups predicted they  
would have a million marchers in  
line in the east side of Paris, and  
authorities feared the death of  
Dreyfus would add fuel to their  
fighting ardor.

### Arthur Mometer

Its Saturday and a long week end  
so ho for a quiet spot, where there's  
lots of room and there's lots of  
shade and nobody knows its hot.  
Then ho for the calm of the Slip-  
pery Rock, where the hills are ver-  
dure clad, and the creek is cool as  
it ambles on, inviting each lass and  
lad. And ho for the bunk under-  
neath the trees away from the city  
strife, where there is no roar of the  
motor cars, believe me that is the  
life. Just to sit and dream and let  
smoke or read, or tramp the hills  
far away, is pleasure enough for a  
chap like me, its hot, ninety one to-  
day.

Sentiment of a large number of  
persons familiar with the traffic situ-  
ation at the intersection of the  
Perry highway and the New Castle-  
Slippery Rock highway at Harlans-  
burg, seems to be that the sugges-  
tion of Pa New for erection of a  
traffic light signal at the intersec-

making that intersection safer.  
There is no reason why the Perry  
highway should be made a speed-  
way across this crossing.

Pa New is of the opinion that a  
halt should be placed on the pro-  
gram that has been started of  
posting candidate's placards in Cas-

didates for office this summer, one  
can readily picture what the park  
would look like if every candidate  
conceived the idea of tacking his  
picture promiscuously over the park.

# PROBE DISASTER TO BALLOON

## Many Rumors In Circulation

Stratosphere Balloon Explosion Remains Mystery To Those In Charge

## DISCOUNT RUMOR BULLET HIT BAG

(International News Service)  
RAPID CITY, S. D., July 13.—The probe into the disaster of Explorer II, stratosphere balloon that collapsed just prior to its scheduled take-off from Moonlight Valley here, will get under way today, according to national geographic and army air corps officers.

Cause of the collapse still remained a mystery, with Captain A. W. Stevens, flight commander, and Captain O. A. Anderson, the pilot, retreating, sadly, that the second failure of the stratosphere flight in two years "just didn't make sense". They were at a complete loss to explain how a great rent started in the fabric of the balloon, causing the helium gas to puff up through the top.

Many rumors were rife, some sensational. Captain Anderson, the pilot, however, said it was impossible to give any explanation of the collapse until the fabric of the huge balloon had been examined. The Anderson went over the balloon for several hours before inflation was completed. He snapped back folds, pried every spot for flaws.

"The balloon seemed in perfect condition," he said. "Weather conditions were ideal. There was not a breath of wind stirring and the big bag was motionless, puffing sound and the fabric showed a huge rent at the top, folding down in a blue haze through the top of the balloon. It's a complete mystery and just doesn't make sense."

Rumors that a shot had been fired at the balloon from the rim of the bowl were discounted by army officers and national geographic officials.

of the old street car line while a little rough in some places, is nevertheless quite attractive at the present time. It has been treated so that the dust is kept down, and is being extensively used by park patrons.

Dear Pa News:  
In the past few weeks, the New York papers have given much space to Mr. Dittmar's collection of Albinos in the New York Zoo.

So yesterday Charles Black of East Brook informed me that he saw a white June bug, and he asked me if this would be common among June bugs. Mr. Dittmar's collection of Albinos creatures are white rats, snakes, white toads, white possums, white alligators, white deer, and white peacocks. Can anyone else report of Albinos creatures around here to match Mr. Black's White June bug (white mice not included).

## OWEN PENFIELD FOX

Residents of the Oak and Spruce street community report that the youngsters in that locality have been entertaining themselves and the neighbors with a first class circus parade. The pageant is headed by an elephant constructed from burlap sacks, and although it has no trunk, it is a realistic elephant to them. The lion is a dog carried on a wagon, caged up, and the circus equestrian is a pretty little red-haired girl on a bicycle. There are also cowboys, Indians, etc., and bringing up the rear is a boy on stilts.

Cabinet officers, congressional leaders, wheel horses of the successful 1932 campaign and a varied group of Roosevelt subordinates, numbering in all about 45, are gathering today and tomorrow on Jefferson Island, a fish and gun club, 16 miles southeast of Annapolis, as the guests of the Democratic senators who maintain it. The president was leaving the White House shortly before noon today to preside over the week end of fun, fishing, and heavy political discussion.

From Vice President Garner, Speaker Byrns, a group of prominent senators, Mr. Roosevelt will be enabled to get a clearer picture of when congress can be expected to close up shop. The president personally is driving for adjournment not later than August 17 so he can swing out across the country on a trip that will informally open his campaign for re-election.

Redistribution of wealth through heavy taxes on the public utility holding companies stand out at this moment as issues President Roosevelt and his fellow Democrats may be expected to hammer home from now on. From his recent public utterances it has become apparent that the executive intends to base his appeal for re-election on the social reform benefiting the masses at the expense of the wealthy.

## TAX DECISION GIVEN BY COURT

(Continued From Page One)

amended permitting the abatement of tax penalties and interest without regard for the taxes subsequent to 1934.

Under the amended act, which is declared constitutional by the court, a taxpayer who is in arrears for his 1934, 1933, 1932 and all previous taxes can now pay them up without penalties or interest, save for the five per cent collection fee. 1935 does not bind him to pay his taxes before they are delinquent on September 1. However if the taxpayer wishes to pay 20 per cent of his delinquent taxes now and have the penalties abated he must pay his 1935 taxes in full before they are delinquent and all county taxes are due for a period of five years, as they become due.

The county commissioners will now pass a resolution empowering the county treasurer and delinquent tax collector to abate the penalties and interest as permitted.

## TEACHERS' SALARIES WILL BE RESTORED TO EDMONDS' ACT RATES

(Continued From Page One)

or will we peg their salaries at the schedule?

## Unfair To Some

Said McIlvenny, "It seems unfair to give some of the senior teachers more than others, who are just as capable. Why is this done?"

Said Hyde, "Years ago when there were raids on the teaching staffs of our schools, high teachers could receive two additional increments of \$100 per year. I believe we stopped this some years ago."

Said Woolcock, "No much action was ever taken by the board." Dr. Green agreed with this statement.

The matter of teachers salaries was passed for brought up the matter of janitors salaries.

"Under the code janitors are to be pensioned at 70 where they belong to the retirement fund," said McIlvenny. "One janitor said that he wouldn't give any of his money to the retirement fund. He is now over 70, but because he didn't join the retirement fund he is still working."

"There is one janitor who was urged to join the retirement fund but would not," said Superintendent of Buildings, S. G. Ligo.

Said Superintendent Green, "You can now compel the janitors to join the retirement fund."

"What are you going to do with these old fellows?" asked Bauman. "Kick them out and let them starve. They couldn't get anything else to do."

Said Ligo, "I had in mind an idea which if the board agreed with it could be put into use. I would put in a new scale for janitors who are unable to do all the work required, and pay them accordingly."

Said Dr. Cleland, "Of course if one of these old men falls and breaks a hip, the board will be liable for the rest of their lives."

Said Hyde, "This board should know just what all janitors are getting in the way of salaries and what is paid for extra janitor service and extra help."

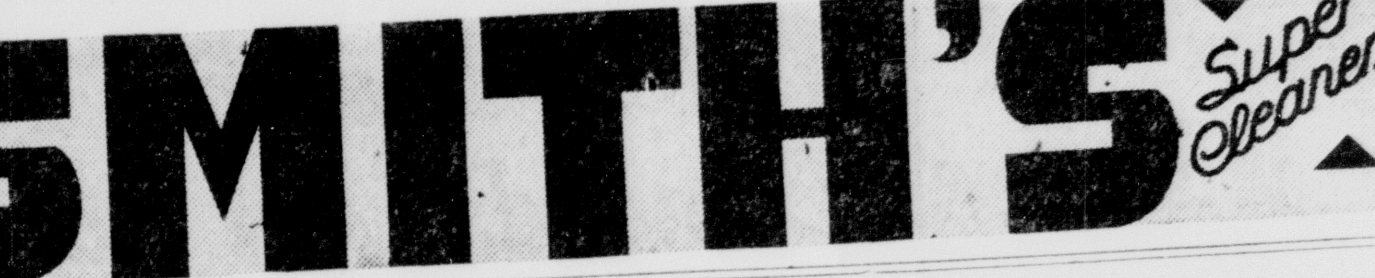

Extra Janitors  
Ligo explained that extra janitors and extra help were different. Extra

## Report Temporary Trade Agreement

United States And Soviet Russia In Agreement—No Loan Provided

(International News Service)

MOSCOW, July 13.—A temporary trade agreement between the United States and Soviet Russia has been reached, it was learned here today.

The agreement, formulated in an exchange of notes between Foreign Commissar Maxim Litvinoff and United States Ambassador William C. Bullitt, is expected to be operative until a formal treaty is signed shortly.

The agreement establishes a "most-favored nation" basis for Russo-American trade, it was understood, but there is no provision for a loan to Russia.

This was the principal point at issue when trade negotiations in Washington broke down last February.

We will learn of "Transportation Regulation" from Rotarian Charles Young on Monday when he will tell us all about the Public Service Commission and the laws they operate under.

### GOOD PLACE TO LIVE

RESIDENTS of New Castle and Lawrence county have had innumerable occasions to be grateful for the location of their homes—for the natural conditions which make this section a good place in which to live.

This feeling of gratitude for the way in which we have been spared is emphasized by the proximity of recent devastating floods and rainfalls which have stricken portions of southern New York and eastern Pennsylvania. We have not always escaped severe wind and rain storms; and earth tremors have been felt here at distant intervals, but on the whole we have experienced nothing comparable to disasters in other sections.

The western states have had their dust and rain storms, California earthquakes, Texas and Florida the tidal waves. Drought and storms have alternated in many sections of the country to produce havoc and suffering among the residents.

In addition to our temperate climate, our days of sunshine, our adequate rainfall, and our change of seasons, we have not been disturbed seriously by any freak activity of the elements. Dame Nature seems to have smiled kindly upon the good people of Western Pennsylvania.

### NEED FOR SMALL CHANGE

The government mints at Philadelphia, Denver and San Francisco are running 24 hours a day to meet the demand for pennies, nickels, dimes, quarters and half-dollar coins.

Nellie Taylor Ross, director of the mint, learns from the older employees that after every depression there is a great demand for small coins. The demand, however, was never as great as now, due to sales taxes levied in some of the states and in New York City which for six months has been collecting two per cent, while Ohio collects three per cent, making the need of pennies felt in nearly all sales.

Years ago when three-cent car fare was proposed in many cities and put into effect on the Tom Johnson lines in Cleveland the government anticipated a heavy demand for three-cent pieces. Conditions changed, and car fares finally took an upward turn to meet rising cost of operation.

### AN UNINSPIRING CAREER

A dispatch from Berlin reveals the fact that Dr. Paul Joseph Goebbels, nazi minister for propaganda and public enlightenment, is displeased with the attitude displayed by students in the official German Press School.

Visiting the school recently, he publicly reproved the students for laziness, declaring that "the general level of education and abilities among you is far from satisfactory" and adding that he would not allow the German press to "decline to a low cultural level."

We might sympathize with Herr Goebbels' disappointment, yet it is hard to see why future newspapermen should bother to do much studying in a nation like Germany. Where freedom of the press is dead, and the job of a newspaperman consists in taking government handouts and assiduously "yessing" the national administration—why should any student of journalism work hard to prepare himself for his career?

### ALL ABOARD FOR ETHIOPIA

Mussolini is embarking on his Ethiopian adventure in something like a holiday spirit. He has brushed aside all obstacles. The protests of Great Britain avail little since the breach with France. The British Foreign Secretary pledged further efforts for peace, declared that Italy had no excuse to make war on Ethiopia, deprecated the effort of the League of Nations, but denied that his government had asked for the co-operation of France in a blockade against Italy.

A determined stand by Great Britain and France would doubtless be upheld by the nations of the Little Entente, but of themselves they are powerless to intervene. Secretary Hull yesterday informed the Italian ambassador that this country would view with misgivings any steps taken by Italy which would lead to war. This is as far as we can go. The international banks do not see how the bill can be paid, and they fear also the effect upon the rest of the world. The general depression will not be lifted by a new war; nor will commercial and financial complications be eased. Another question which Mussolini blithely refuses to consider is the possibility of defeat. No doubt the Italians can wipe out the Ethiopian forces along the borders; the mountain fastnesses are another matter. If the Ethiopians avoid general engagements they can carry on guerilla fighting for a long time. And another foe will be disease.

Of conciliation there is no longer real hope, whatever the British may do. The commission at Scheveningen has suspended its sessions after the Italian representatives refused to hear Ethiopian witnesses. Mussolini remains truculent, deaf to the voice of reason.—Philadelphia Inquirer.

It wasn't a pair of broken hands, after all, that contributed to Maxie Baer's defeat by Bradock. Unknown to even his closest friends, Max has been carrying around as a handicap the middle name of Adelbert.

Canada won't give relief to anyone owning a car. Our northern neighbor, it seems, is one of those backward lands in which a car hasn't taken its place with food, drink and clothing as among the necessities of life.

### THE ART OF CONVERSATION

Several times a year I read, somewhere, a moan from some old fellow about the Lost Art of Conversation.

This sad fellow gets to thinking about the good old days and comparing them with the days he is living in now—and how he suffers!

He tells how, in the old time, there was Real Conversation. Men and women sat together in the parlor and TALKED. They took ideas apart and put them together again. They analyzed morals, conduct and public events with grace and charm. They were ladies and gentlemen, with plenty of time on their hands—and the desire and the ability to embroider it beautifully.

But now, what do we have NOW? ... Now we have movies and radios and bridge and automobiles and a nervous, hectic, shallow life. We have chatter, and we don't have conversation! ... So say those dear old wistful fellows who yearn with a most nostalgic yearning for the dear old days that have gone forever!

But I have a hunch—a very strong one, too—that the great Art of Conversation was chiefly the art of listening to Great Bore. ... The Bore took the floor and talked. He had the great Gift of Gab and knew it was his. So regardless of you and me and you, he insisted on talking. ... He pounced on every subject and elaborated it lovingly, at length, while the sun rose and spanned the heavens and fell into the sea. He talked and he talked and he talked. ... While other bores waited, in contempt and fury, for the chance to make a breach in the great wall of his words and seize the citadel of conversation for themselves.

I did not live in that golden age of conversation ... and I'm glad I didn't. ... For many reasons I prefer to live now—in a streamlined age in which you bring up a subject, state your facts, give your opinion, support it with swift argument—and drop the subject.

That, to me, seems the true Art of Conversation, and I would not see it altered and improved. It is proof against bores.

### STRIVE TO ATTAIN MENTAL AND PHYSICAL ACCORD

Do you make many quick, thoughtless movements?

Often you are embarrassed as a result of some action which has no mental direction behind it, or, at least, not enough to make you realize what you did.

Perhaps you have sustained personal injuries or have caused others to be hurt through these quick, thoughtless jerks.

You thrust yourself ahead, not looking where you step.

You brush something out of the way and hit someone in the face.

People dread to see you coming—you are the "bull in a china shop."

Thought impulses are acted upon without thought of time or place.

You are considered a "jumper."

You are fidgeted carry out what they are told to do, regardless of consequence.

Watch yourself for a day and you will become convinced that you make a great many unnecessary movements.

You will be surprised to discover that your thoughts and acts show so little coordination between mental and physical impulses.

This should be of great concern to you.

Get yourself under better control.

LOOKED AFTER

Ma's been busy as can be. Always looking after me.

Guess she's never known a minute that I wasn't reckoned in it.

Should she do it or she shouldn't? Would I like it or I wouldn't?

Seems that everything must be Satisfactory to me.

Everything she's ever bought has been questioned with the thought.

"What, I wonder, will he say When I show him this today?" Down through nine and twenty years Nothing for herself appears. Always busy as could be Planning everything for me.

Lord, we'd had our little spats Many and many a time, but that's Human and when they were done Smoother matters seemed to run. Always quickly we'd repent. Hasty words we never meant. And I'm glad as I can be Ma keeps looking after me. (Copyright, 1935, Edgar A. Guest.)

RED BOOK'S IDEA OF AN EXECUTIVE

"Executives are a fortunate lot. For as everybody knows, an executive has nothing to do. That is except."

"To decide what is to be done; to tell somebody to do it; to listen to reasons why it should not be done, why it should be done by somebody else, or why it should be done in a different way and to prepare arguments in rebuttal that shall be convincing and conclusive."

"To follow up and see if the thing has been done; to discover that it has not been done; to listen to excuses from the person who should have done it and did not do it; and to think up arguments to overcome the excuses."

"To follow up a second time to see if the thing has been done; to

discover that it has been done incorrectly; to point out how it should have been done; to conclude that as long as it has been done it might as well be left as it is; to wonder if it is not time to get rid of a person who cannot do a thing correctly; to reflect that the person in fault has a wife and seven children, and that certainly no other executive in the world would put up with him for a moment; and that, in all probability, any success would be just as bad or worse."

"THE BURDEN OF TAXATION"

I am concerned as you must be, as to the increasing burdens that industry is being called upon to carry; it seems hardly necessary to point out, but the fact is too frequently overlooked, that industry alone creates wealth; that Government through taxation and by borrowing consumes wealth either already created or to be created in the future. The more the Government consumes the greater burden thrown on industry. The greater the burden the more we limit its ability to contribute to the social advancement of our people. Too little consideration is given to the economic consequences of the continually added burden being placed upon our industrial machine. If we are to be guided by the thinking of the moment, we reach the conclusion that the problem is not to determine what burden industry should carry in the interest of all concerned and in harmony with the objective for which we are struggling, but, on the contrary, we are apparently trying to think of all possible things with which we might burden industry particularly in a time when industrial recovery is so essential and when encouragement is such a vital factor in recovery. And too frequently we are actuated by political considerations. To my way of thinking, it is inevitable that sooner or later there must come an accounting and I hope that that accounting will be no more serious than a recognition of the fact that out of such excessive exactions there can only be one result—less productivity, reduced number of jobs, an increased amount of unemployment, a lower standard of living.—Alfred P. Sloan, Jr.

A law just signed by Gov. Earle provides for a pension of \$30 a month for all blind persons in Pennsylvania, provided they have incomes of less than \$1,200 a year and property assessed at less than \$5,000. Most everybody can agree that that law is about right.

TODAY'S STORYETTE

A farmer who was very much troubled by trespassers during the gunning season consulted a botanist. The scientist furnished him with the technical name of the hazelnut after which the rural gentleman placed the following sign in a conspicuous place on his premises:

"Trespassers take warning! All persons entering this wood do so at their own risk, for, although common snakes are not very often found the 'Corylus avellana' abounds everywhere about here and never gives warning of its presence."

The place was unmolested the rest of the hunting season and the farmer gathered his crops in peace.

A local chap says a foshin' trip is fun if you don't run out of the incidental things.

Our idea of a foolish thing is to give a bum check to a hotel keeper while one is on a wedding trip. It spoils the trip right away. The police get hep at once.

The hick towns are the ones you pass through to and from your annual vacation.

If Little Tom Thumb would be around here now and would stick in his Thumb he would very likely pull out a raspberry instead of a plum.

GETTING HER LESSONS

"And when Mrs. Gubbins sez you wasn't no lady, wot did yer say?"

"I sez, 'Two negatives means an infirmity, and I knocks 'er down. She is now in the 'orspital.'"

It isn't an interesting sight to see a chap step into a florist and order flowers, but it might be if we knew what he was going to do with them.

Very often we hear of couples being separated on account of religious differences. In many cases we bet they didn't know anything about any religion before they were married, but it sounds like a good excuse to get rid of a married mate.

"Well, for heaven's sake!" Ginsberg shouted, "can't you at least turn off the meter?"

Probably the first thing Paul Revere said after his famous ride to warn the colonists of the approach of the British was "Whoa." A lot of people up around Boston still think he stopped to make a call on a lady or two at the end of the ride, the end of which seems to be in doubt yet with some.

Remember, this gals, the boy friend who to you would be an ideal husband to another girl might be only a pain in the neck.

The poetic way: "The young man's heart was pierced by Cupid's dart." Life as is: "He fell for her."

An old-fashioned mother was one who advised her daughter to put off marriage until she had a chance.

Americanism: Calling the United States senate the world's most august legislative body; members responding to all executive demands with a humble: "Yes, sir, quite right, sir."

Correct this sentence: "She was new-rich, with a rope of pearls a yard and a half long, yet she never acted as if she thought of the world as her oyster."

### Interest Disappearing Major Economic Shift Britain's Position

Central Press

New York Bureau

235 East 45th street

By LESLIE EICHEL

Central Press Staff Writer

NEW YORK, July 13.—The chief change taking place in the United States—estimated the most powerful capitalist country—is not the organization of labor, nor the various changes in economic procedure, but in the disappearance of interest.

Interest has not entirely disappeared by any means. But once the government prevents a profit in the issuance of money or the floating of bonds, once all bonds are made taxable and once money is raised largely by taxation instead of borrowings, then interest will disappear.

And once the capital market can be fully supplied by excess reserves forced by government expansion of credit—then it ceases to become a capital market, for money becomes too cheap a commodity for profit.

In brief, the United States may find itself in a wholly changed economic sphere, antagonistic to nations that still maintain the orthodox capitalistic views.

WHAT WILL BRITAIN DO?

Great Britain always has been suspicious of the American capitalistic system.

It believes it has not been sound enough.

Its governing class now probably looks in horror on developments.

Thus, if the United States continues its trend away from interest, where will Britain stand?

Britain exists on interest.

EVERYBODY IN ON TAXES?

"What I object to in the so-called rich crusade is its intellectual dishonesty, its demagogic political aspects," writes V. M. McNitt, publisher of the Southbridge, Mass., Evening News.

"It isn't going to do this country

any good to have too much rabble-rousing.

"Any honest scheme of taxation should take in everybody who has more than enough income to meet necessities."

CAFFERY UNDER FIRE

Jefferson Caffery, ambassador to Cuba, is under more serious fire than usual this time.

Not only has the committee, under Clifford Odets, playwright, which was expelled, gained a great deal of publicity, but a committee of well-known liberals has requested Secretary of State Hull to remove him.

Odets, most successful playwright of the year on Broadway and a leading publicist for the left, is organizing another delegation to go to Cuba "to obtain the facts."

His first committee was hustled off ship to an internment camp, Ambassador Caffery showed no interest, Odets says.

"By this deed," says Odets, "of deporting us at the points of scores of rifles and sub-machine guns, they the Cuban government and the American embassy have shown the blackest partiality in favor of concealing from the world the horrible conditions under which the majority of the Cuban people exist."

The liberals who wrote to Secretary Hull—under the title of the International Committee for Political Prisoners—said that Caffery acts "rather as a member

# Committee For Mahoningtown Reunion Meets

Committee Of Arrangements For School Reunion Talks Over Plans

The arrangement committee of the Mahoningtown School Reunion met in the home of Mrs. Robert Magill, Highland avenue, on Thursday evening and made plans for the 10th annual reunion which will take place on Wednesday, August 7, 1935.

Members of this committee are: Mrs. Robert Magill, chairman, Bessie Coates Pitzer, John Louer, Robert Sheehy, Frank Barnes and James Bailey. J. Harvey Gwin is president of the organization, John L. Thoman is vice president and Ralph Wettich is treasurer.

The first Wednesday of August is always a memorable day in the lives of former students of Mahoningtown who attended the old brick school before the fire which destroyed the building. For ten years former students have been setting this date aside for renewing old acquaintanceships and last year 200 were present.

An executive meeting is yet to be held and final arrangements will be made at that time. Invitations will be in the mails next week. All former students attending prior to the fire are entitled to invitations but it has been difficult for the committee to get a complete enrollment. The invitations are merely reminders and are not necessary for admittance. Every former student will be given a great big hand; an effort is being made to have this reunion the greatest of all.

Mahoningtown claims the distinction of being the second school to organize annual reunions; Aiken was the first.

At the conclusion of the business meeting Thursday night, Mrs. Magill served refreshments. A surprise feature was the presentation of a token to Mrs. Magill by John Louer in behalf of the committee, in appreciation for the hospitality she has given to the group in the past four years.

day, first on account of limestone from Rural avenue damaging furniture and making it impossible to occupy Neshannock avenue porches and second on account of the weeds. The limestone evil did not appear only yesterday. In fact it has been there since summer travel over the Rural avenue started. The city proposes to oil Rural avenue. It is hoped that the persons responsible fill the holes before the oil is applied. During the administration of Stanley Trever he sent men out to cut down weeds between the curb and sidewalks.

Chris Coulthard, superintendent of Cascade Park, stated a few days ago that the water in Cascade Lake has started to clear and it is likely that before long all evidence of the stream having poured polluted waters into the lake will have entirely disappeared. While pollution of streams cannot be condoned there is happiness in the prompt manner in which those responsible agreed to correct the evil. Time and again proposals to stock Cascade Lake with fish have been made. So far the lake has not been stocked. The lake is a city owned body of water and if the water is kept free from pollution and sufficient "drag" can be had with powers that be in Pennsylvania the lake in time may become one of the fishing places in this section.

## Old Timer's Day For Grove City

GROVE CITY, July 12.—All committee chairmen have reported to C. A. Black that their plans are complete for entertaining hundreds of former Grove City citizens, who will return next Wednesday, July 17th for the annual Old Timers' Day.

## AROUND CITY HALL

Police chronology for 24 hours ending at 3:30 p. m. July 12, four arrests on charges as follows: Drunkenness 2, drunkenness and begging 1.

Councilman Albert Hoyland's financial warning to city council yesterday in all probability will have a tendency to make them considerable wary in the spending of future monies. He said some appropriations have either been exhausted or over-drawn and he knows of no place from which the appropriations can be replenished. During the past several years the city issued negotiable paper to employees. As a courtesy to the city the local financial institutions cashed the paper without charging the city employees for so doing.

B. F. Butler's department of streets occupied the limelight during council-maniac meeting yesterday.

### Ellis Announces For Commissioner

Well Known Lunch Wagon Proprietor Seeks Republican Nomination

W. H. "BILL" ELLIS

I was born on a farm in Tompkins County, N. Y. state, February 17, 1880. Came to Lawrence County, Pa., and opened a lunch wagon at 365 East Washington street, December 1, 1903, and have been in same location ever since.

I am not being backed by any click or faction. If elected, I will try to lower taxes and also will try to use Lawrence County products.

Why was the double cement bridge at Wurttemberg, Perry township, over the Slippery Rock Creek, built with Butler County cement, when we have "three" cement companies in Lawrence County paying taxes, and their employees trying to make a living?

May I have your vote and influence.

### Equipment For Playground To Be Purchased

School Board To Aid With Some Of Projects On School Property

After some discussion Friday night, the New Castle school board decided to purchase \$50 worth of playground equipment which will be loaned to the playground projects now under way in the city on school property.

J. H. McIlvenny brought the matter up when he said that it seemed a shame to have 125 or 150 youngsters on a playground without equipment.

Said Hyde: "While an act of assembly permits the school board to join with the city in purchasing playground equipment, it was the opinion of our solicitor that it would be illegal."

Mr. Moffatt was then asked if it was legal to purchase equipment as school playground equipment and loan it to the summer playgrounds. He replied that it was, and the motion was passed.

### British Troops Viewed By King

Estimate 15,000 Of Picked Men Of British Army March For King

### ANOTHER PART OF JUBILEE CEREMONY

By CHARLES A. SMITH  
International News Service Staff Correspondent

ALDERSHOT, Eng., July 13.—In the most brilliant military cavalcade of modern English times, 15,000 picked men of the British army today paraded before King George of England in spacious Rushmore arena here for the monarch's silver jubilee review of his troops.

Watched by 100,000 widely enthusiastic people, units of the nation's most famous foot, mounted and mechanized regiments entered the great grassy natural amphitheater to receive a gravely given salute from the khaki-uniformed, bearded 70-year-old monarch, who was accompanied by Queen Mary, members of his family, and a brilliant military staff.

Today's parade was the first royal review of the British army since June 1925 when 14,000 men paraded before the King of Aldershot Plain. It was mainly a khaki review and one that served to remind the watchers that the modern fighting force is highly mechanized, with the horse as a minor feature.

Massed mounted bands of cavalry brigades, in their colorful full dress uniforms, struck up the national anthem as the king and queen entered the royal box in the main stand, while the entire 1st Cavalry Brigade, drawn up facing the royal box, gave the royal salute as the national flag was run up on the flagpole atop the main stand.

In the parade which commenced immediately the royal party had entered the box, the Cavalry squadrons, Hussars regiments, and Cheshires took the lead, preceded by a mounted band of 150 musicians playing stirring military airs.

### To Alter Lighting In Some Schools

Defective Vision Report Of Medical Director Discussed By Board

In a summary of the medical activities of the New Castle schools during 1934-35, the number of cases of defective vision reported, 1414, attracted the attention of Director J. H. McIlvenny on Friday night at the board meeting.

"That seems unusually high," said Mr. McIlvenny. "Does it appear that way to you?" he asked Dr. W. D. Cleland.

"It isn't high considering some of the lighting systems we have in the schools," replied Dr. Cleland.

The discussion brought out the fact that the school lighting projects have now been approved and work is expected to start on the first three buildings to be improved, North Street, Oak Street and West Side, in the near future.

For years the lighting of school rooms in New Castle has not been satisfactory. It should be noted that the next six months it is hoped to improve many of the buildings.

### Suggests Change In Payment Of Teachers' Salaries

Proposal Made To Pay In Twelve Monthly Installments

Once again the proposal to pay school teachers in 12 monthly installments instead of nine in New Castle was broached to the New Castle school board Friday night when the board met. A. C. Hyde brought the matter up and said that such an arrangement had been suggested to him by various teachers and that it would be a convenience for the board, with the revenues coming in so slowly.

"The idea has a lot of merit," said W. W. Duff, "but I think we should find out the attitude of the teachers."

"There was a survey made at one time," said Superintendent C. C. Green, "and many of the teachers favored it. However, there were many who were against it also."

The idea was referred to the superintendent and the budget committee for further study and report.

### Board Authorizes Purchase Of Books

Some Text Books Are Also Adopted At Meeting On Friday Evening

Text books were adopted and a number of purchases of books authorized Friday night when the New Castle school board held its regular meeting. Among the new basic books adopted are "Old World Beginnings of America," of which 225 were ordered at a cost of \$168.75. Another basic text ordered was 250 copies of "Industrial Geography" at a cost of \$322.50.

New supplementary text books adopted for the coming year include a wide variety of readers, spellers, and reading books. A total of \$108.13 was authorized spent for these books for use in the elementary and high schools for the coming year.

Textbooks requisitioned for the coming year for all schools shows a total of \$13,535.14, which will be purchased.

The Textbook and Supply committee authorized the purchase of various and sundry articles of equipment needed in the schools, amounting to \$767.10. This includes two typewriters, record books, floor wax and the like.

The list of current bills for the month saw a total of \$3,271.2, authorized.

### Agree On Salary For City Treasurer

School Board Accepts Figure Designated By Members Of Council

New Castle's next city treasurer, who is also the tax collector for the city and school system will receive \$3600 per year as a salary. This amount was set by the New Castle school board Friday night, concurring in the city's action of Friday morning.

The salary was arrived at by a conference between the city and the school board representatives. The matter of expenses and clerk hire will be arranged later.

Under an act of Assembly the city treasurer was put on salary as against the old fee system. The schools and the city divide the cost of his office equally.

### Delay Hearing For David Powell

MERCER, July 13.—The hearing for David Powell, 22, held for the murder of John Kudelko, 60, set for Thursday has been continued until next week.

Powell is held in jail on the charge.

He will be represented at the hearing by Senator Ben Jarrett of Farrell.

The case is perhaps the most unusual in county history. Powell is alleged by the commonwealth to have beat Kudelko to a point where the aged man expired from a brain concussion 12 hours afterwards.

Both lived in Lackawannock township. An accident to the car of Powell and injury his girl led to his asking Kudelko to assist him in getting a doctor. When the two arrived in Greenfield, the township center, Powell became enraged at Kudelko's refusal to assist him in breaking open a store to call a doctor.

### MINOR MATTERS BEFORE SCHOOL BOARD ON FRIDAY

A contract for the cleaning of band uniforms was let Friday night by the New Castle school board to Dennison Brothers at their price of \$60, the lowest bid of those submitted.

A bid for printing the forms necessary for next year in the schools was let to the Leathers Company at their price of \$229.30. About 81,000 pieces of printed material will be needed.

Bids for coal for the coming winter were ordered advertised. Bids for the eradication of termites in several schools were ordered advertised.

### Sons Of Legion Seeking Honor

Hope To Win Membership Cup Award At State Encampment Next Month

### ENROLL MANY NEW MEMBERS FRIDAY

Plans were made for an energetic membership rally by the Perry S. Gaston squadron, Sons of the American Legion, were made at the meeting of the squadron in the Legion Home last evening.

Clinton Campbell and Frank Conner, Jr., were named captains and the membership of the squadron was divided up into teams in an effort to bring the membership of the post to the fore. There are five posts in the state which are ahead of the New Castle squadron in point of membership, but with more than 20 new members reported last evening the membership in the squadron was brought to 130.

The dues are very small and an appeal is being made to the Legionnaires to have their sons enroll, so that additional honor may come to the post.

William Rees entertained the boys with an instructive talk on the various ropes used in the navy and the purposes of each, which was much appreciated.

Friday morning 40 of the boys were taken on a tour of the Shenango Pottery and Lawrence Ice and Storage plants, where they saw pottery being made and learned the way ice is manufactured.

A similar activity is being planned for next week.

The Legion post committee, under the direction of Dr. John A. Mehan, chairman, has renewed its interest in the post and is giving him splendid co-operation in the present membership effort.

### Birth Control For Families On Relief Is Urged

(International News Service)

WELLESLEY, Mass., July 13.—Birth control for families on welfare relief had been advocated today by Roger W. Babson, statistician, before the institute for social progress.

He was speaking on race betterment and asserted the first step was to eradicate unemployment and poverty.

"Those who produce more than they consume should be encouraged to breed, while those who do not should be taught not to breed," he said.

Indoor Camp Closes Today

At Noon Today Second Annual Indoor Camp Of Elm Street Y. W. C. A. Ends

The indoor camp which has been conducted at the Elm Street Y. W. C. A. during the week came to a close at noon today. Friday morning, after morning worship conducted by Anna Taylor, Miss Jean Henley was the guest speaker with an interesting account of her travels in Europe. Miss Cora Ritchie, former general secretary of the Y. W. C. A., and Mrs. Blanch Dillard were also special guests for lunch and brought greetings.

Mrs. Julie Wilkes and Mrs. Frances Rankins helped to prepare the meals.

This morning after setting-up exercises and breakfast, Gertrude Taylor had charge of morning worship.

Following this the girls cleaned the building and packed their luggage for departure. A farewell tea marked the last event of the week, during which time, the camp log, which had been kept by Gertrude Taylor, was read, songs were sung and each girl told how she had enjoyed her stay. Thus ended the second indoor camp period of the Elm Street Girl Reserves.

## Max Schmeling Has Agreed To Meet Joe Louis

German Heavyweight Will Come To United States To Meet "Bomber" Joe

By DAVIS J. WALSH  
International News Service Sports Editor

NEW YORK, July 13—Advices from Germany today were to the effect that Max Schmeling has finally consented to have himself publicly scattered here in September by Joe Louis for thirty five percent of the gate receipts, although it might be well to keep in mind that the announcement came not from the fighter but from his manager, Mr. Joe Jacobs, who is utterly fearless. Moreover, until far into the night, Promoter Mike Jacobs had received no word of this supposed development his last cable from Joseph, the courageous Jacobs, having arrived Thursday morning, collect.

Still Dicker  
It said that he was still dicker with Schmeling, leaving the impression that this pair get together on the thin, as soon as they become better acquainted. Right now, the only point on which they seem to agree is that the \$200,000 the dauntless Jacobs says they'll set is a great deal of money.

Otherwise, Schmeling seems to have been a most reluctant party to the proceedings, it being his evident purpose, if possible, to engage the other ex-champ, Max Addle-brained Beer, either in Amsterdam for Walter Rothensberg or in New York for Madison Square Garden. But it would appear that Mr. Baer, after the singular developments of the past week, has been temporarily withdrawn from circulation.

## HERE AND THERE IN SPORTS' LAND

Ray Mangrum of California and Byron Nelson of Ridgewood, N. J., led last night in the \$1,000 first prize money in the General Brock hotel open golf tourney at Fonthill, Ont. They posted a 36 hole card of 143, one stroke ahead of Walter Hagen who missed tying them by one inch, that being the distance that he missed a putt on the eighteenth.

Overcoming a deficit of two sets and 5-3 in games in the third, Charles Harris of West Palm Beach, Fla., put on a garrison finish and beat J. Gilbert Hall, South Orange, N. J., veteran and entered the finals of the invitation tennis tourney at Spring Lake, N. J. The scores were 3-6, 3-6, 6-6, 6-1, 6-1.

Peter Expert, driven by Homer Walton, captured the Cleveland Press \$1,000, 219 pace in straight heats at the fifth day of grand circuit racing at North Randall track yesterday. Ideal Grattan and Miss America were driven to victories by Warren Dennis in the 2:22 and 2:22.18 paces, respectively. Angel Child beat Tondolena Stout in the 2:13 trot.

Discovery, Top Row and King Saxon will race at Empire City today. The former two have hung up records while King Saxon has been unbeaten at a mile or less in more than a year of campaigning. Discovery is a six-five favorite to win.

## Ross A. C. Wins Nineteenth Game

Henry Clause was in fine form Friday morning on the B. & O. field and as a result the Ross A. C. mushball team won its nineteenth straight victory, defeating the All Stars, 10-9.

It was the fifth straight win for Clause. Lou Ross, Mielcio and Santangelo hit homers. Sunday, on the B. & O. field, the Ross A. C. opposed the Audias.

The summary: R. H. E. All Stars . . . . . 200 310 102-9 12 2 Ross A. C. . . . . 210 202 128-10 13 1 Batteries: All Stars, Amabile and Fonzono; Ross A. C., Clause and DeFelice.

In an exciting mushball contest played on Friday, the Rose avenue playground mushball team annexed a 15-10 triumph over the Lincoln team.

## Soft Ball Loop To Be Continued

Teams Agree To Finish Season With Eight Teams, Penalties Inflicted

New Castle Soft Ball League will finish the season with eight teams, it was decided last night at the Y. M. C. A., where the managers and officials of the league gathered with President Walther to discuss the future of soft ball here.

Last night was penalty night in the league, with President Walther suspending Frank Coppel, the right fielder of the Capitolas, for the next five games and Sam Coppel, the Capitola second baseman, for the next three games. Frankie Ross was ordered off the Capitola bench during the game. This action was an aftermath of the unpleasant occurrence at the recent Radiators game at the B. & O. field. Umpires Brooks and Gilmore drew suspensions of one week for failing to show up last night at Castle Beach when assigned to the Croton-Tolan game. Due to a mixup this game will be played at a later date.

The managers voted to return Mike Melder to the line-up of the Saks, at the request of Manager Ray "Bugs" Cutler.

It is altogether likely that the managers and officials will co-operate better after the session held last night. Some fast soft ball games will no doubt be played here in the next few weeks of the season.

Sammy Pezzone, improperly released by the Capitolas, was released by the Capitola team last night. The "Caps" manager, Bill Ross, has refused to release Sammy Pezzone.

## Legion Team To Play For Title

Will Meet Sharon Team On Grove City Field In First District Game

New Castle's American Legion Junior baseball team, sponsored by the Perry S. Gaston Post, which has been declared the champion of the 26th district by the state department of the American Legion, will play its first championship match on Monday afternoon at 4 o'clock at Grove City, on the college athletic field.

This game will be played to decide the representative of the 26th and 28th districts in the state-wide elimination trials, which will select a team to represent the state of Pennsylvania in the national championship events.

The New Castle team has been developing rapidly, one of the best combinations that has ever represented the city having been selected this year, and the game Monday afternoon will be their first real test.

Sharon has twice defeated New Castle in pre-championship games, but the scores have been so close that a break would have won either game for the local team, and they expect to secure revenge on the Mercer county team Monday by winning the championship game.

ROSS A. C. SIGNS SIX NEW PLAYERS  
John "Rags" Gennock, manager of the undefeated Ross A. C. team, today announced that he has signed six new players, making his club one of the strongest in the city.

## Unions Defeat Saks 4 To 0 In Feature Game

Sammy Pezzone Pitches Unions To Victory, Allows Only Four Hits

Only 32 batters faced Pezzone. The Unions found Dwyer for seven hits. The victory put the Unions in a tie for first place with the Davis and Radiators. The Unions have won five straight games under Texie Richards. The stars of the game were Sammy Pezzone, Tex Richards, N. Biondi, Tip Richards, Summers, Vigali, Maki, and Tucker.

ST. ANDREWS WIN  
St. Andrews took the measure of the Capitola team at the Gaston Park field last night 4 to 2, with Joe Isabella outpitching Rod Pezzone to take a 4 to 2 victory. ## Yankees Again Trim Indians

Cleveland Slipping Further Down The Ladder, White Sox Top Red Sox

Triumphs over defending champion H. Lloyd Beyer, Jr., and the veteran Max Marston, both of Philadelphia, elevated 17-year-old Barrett Melvin, of Franklin, to the position of co-favorite.

Running his streak of even-par golf to 59 holes in defeating Marston, 3 and 2, and Beyer by 1 up, Barrett became an even choice with the veteran Woodie Platt of this city to gain the untended throne.

Platt teed off this morning against George A. Menard, Jr., of Llanerch, and Melvin against Perry E. Hall, of Guilph Mills. The victors play for the championship in the 18-hole final this afternoon.

Menard, Penn State captain-elect and junior champion in 1933, survived the third and quarter-final rounds by defeating Clarence B. Humpton, Merion, and W. B. McCullough, Jr., Philadelphia, 6 and 5, and 5 and 4 respectively.

Hall topped Sidney Coltart, Plymouth, current junior title-holder, 2 and 1, and then eliminated Billy Marks, Pittsburgh, 3 and 2.

## Hoover, F.B.I. Head, Describes Ideal "G-Man"

Men who lack physical courage are rejected although they qualify in every other respect, J. Edgar Hoover (upper left), chief of the Federal Bureau of Investigation, told International Association of Police Chiefs, to whom he described the ideal F. B. I. agent. They begin at \$2900 a year salary, receive \$5 a day subsistence, and get raises at regular intervals. Melvin Purvis (upper right), and Rhea Whiteley (lower right), illustrate what F. B. I. men are like. Their courage has been repeatedly tested under fire of such captured guns as F. B. I. men are shown examining below. (Central Press)

## These Men Play Parts in Lobby Investigation

Names of those pictured above are expected to figure prominently in the congressional investigation of lobbying for and against the utility holding company bill. Thomas Corcoran, known as one of the original "brain trusters", and Benjamin Cohen, lawyer, helped draft the holding company bill. Representative Ralph Brewster of Maine, a Republican, declared that Corcoran warned him to support abolition of "unnecessary" holding companies or face the loss of a large PWA project in his state. Representative John J. O'Connor of New York is chairman of the house rules committee conducting the inquiry. Representative Samuel Pettengill of Indiana led the successful fight against the "death sentence" in the holding company bill. Charles West, former Ohio congressman, and now White House "contact man" on Capitol Hill, sought to win house support for the "death sentence". Dr. Hugh Magill is president of the American Federation of Utility Investors. New Deal forces assert that O'Connor, powerful Tammanyite, "slipped over" the teller vote instead of a recorded vote on the "death" clause. The senate also will participate in an investigation.

Stock Market Turns Into Rather Dull Affair, After Brief Flurry At Opening

By LESLIE GOULD  
International News Service Financial Writer

NEW YORK, July 13.—The stock market today after a brief flurry at the opening. Trading which was brisk the first few minutes tapered off as the session progressed and prices tended to ease to around their previous close.

Auto shares were among the favorites at the start as General Motors went through to a new 1935 high and then turned easier but held its own. Chrysler was quiet and steady around yesterday's close.

U. S. Steel and other industrials were firm in light trading, being sustained by the general belief that operations would show a further rise next week.

Aviations were quieter today as profit taking came into some of yesterday's favorites including United Aircraft and Douglas. Realizing, though, was light and easily absorbed.

There was little to feature the utilities where nervousness continued and was reflected in a further shading of quotations for Consolidated Gas and several other recent favorites.

Rails were stronger under the leadership of Atchison, N. Y. Central and Union Pacific.

Oils were sluggish, but rail and motor equipments were strong.

Wampum people who have been on auto trips have returned.

F. M. Davis and Miss Olive arrived home this week from Porto Rico where they enjoyed a sight seeing tour.

Miss Ruth and Lynn Davis, son and daughter of Mr. and Mrs. E. J. Davis, have returned from a three weeks auto trip that took them through all the western states, except Colorado and Wisconsin. They were in the flood zone and were delayed owing to the roads being covered with water. They visited the exposition at San Diego, and traveled over 8,000 miles and report a wonderful trip.

## Gives Reason For Many Floods

Long Range Forecaster Blames Condition On Solar And Lunar Conditions

OCCURS EVERY HALF CENTURY

Central Press Washington Bureau 1900 S Street

By CHARLES P. STEWART Central Press Staff Writer

WASHINGTON, July 13.—As long ago as last February Herbert Janvin Brown, known for his long range weather forecasting, predicted a season of cloudbursts and consequent floods.

New York recently and the mid-west earlier already have had their share, and Forecaster Brown looks for more.

When certain solar and lunar conditions coincide, such phenomena are to be expected. Other factors weigh in the equation also, but these two are predominant—a peculiar lunar tidal pull and just the right stage of the sun-spot cycle occurring simultaneously. They prevail at present.

EVERY 56 YEARS? "The interval between these coincidences is readily calculable," says Forecaster Brown.

"It is approximately of 56 years' duration."

"The last season to resemble the present one was in 1878. Like this one, it was preceded by widespread drought. Then there followed a winter of unprecedented heavy snows, then a summer of violent rain, hail and high winds. Gradually, year by year, these manifestations tapered off to dry weather of the last year or two or three or four in some areas."

"Now we are starting on a fresh cycle."

"Of course, nature's doings of today are emphasized by man's activities in the last two-thirds of a century."

"In the West, where the thick, tough turf was capable of soaking up a heavy rainfall, the soil is baked hard after the drought in our era. Water runs off from it as from a china plate and swells the streams to overflowing."

"The East's rough terrain always has been subject to freshets. Poured into steep, narrow valleys, the rain, when it falls in torrents, naturally seeks its level deep and violently. The beaver, once a wonderful influ-

ence in the restraint of floods, is nearly extinct. His dams largely controlled floods. Little timber is left to sop them up before they become unmanageable."

**WESTERN FARMER PREPARES**  
Forecaster Brown adds: "The western farmer has learned his lesson. He is damming as fast as he can every small draw and gulley just as the beaver did before he was exterminated. The western farmer is trying to restore the lakes that regulated the effect of rainfalls before greed for tillable land drained them."

"The eastern farmer saw this necessity in ample season. He has safeguarded himself for years against erosion even if he had to neglect his crops while doing it, but he has had a dangerous topography to deal with—narrow valleys between steep slopes and high watersheds."

"Indeed, New York's recent disaster was more than a mere cloudburst, which is local. This being a cyclical year, floods are scheduled."

**WHY CLOUDBURSTS?**  
What makes cloudbursts is obvious, Forecaster Brown adds.

Warm, moisture-laden air is swept in from the Gulf. Cold air from the Arctic meets it in sweeping southward.

The cold air, being heavier, tries to get under the warm air. They mix. The moisture is condensed. There is an abrupt precipitation. But that abruptness is normal only at about 56-year intervals. That collision of air currents means floods, says Forecaster Brown. But the floods would not be such bad ones if human interference with natural forces to swift flow had not occurred.

## Shenango Civic Orchestra To Play

Will Give Selections On Sunday In Bell Memorial Church Service

An ensemble from the Shenango Civic Orchestra, which is composed of graduates and students of that school—and some from Ellwood City schools and some from the Shenango high school—will present three selections at the morning church service in the Bell Memorial Presbyterian church, Fourth ward, Ellwood City, Sunday morning at 10 o'clock, eastern standard time.

The three selections to be presented are: "Praise Ye the Lord," a voluntary; "Angels' Voices," a violin duet, with orchestra accompaniment—both selections arranged by J. S. Zamecnik; and "War March of the Priests," from "Athalie," by Mendelssohn.

The ensemble includes: Solo violins, Robert Curry, John Shaffer, Guy Christie; first violins, Helen Hill, Sammie Rice, viola, Andrew Calhoun, New Brighton, guest artist; cellos, Julia Houk and Dr. W. H. Shields, Ellwood City, guest artist; clarinet, Robert Burd; Saxophone, Jack Carlson; cornets, John Fleck, first, Bonnetta Perry, Glenn Reno, second; trombone, Michael Tammer; drums, Edward Rouse; piano, Edna Myers.

This program was arranged by Vera Ramsey, conductor and manager of the orchestra, in collaboration with Harry Atkinson, director of music at the church.

The sermon will be delivered by Rev. J. A. King, pastor of the Bell Memorial.

## Today

Volcano And Earthquake. American Shocks Paris. Selassie's Good. Presidential Whispers. By ARTHUR BRISBANE

THE RECENT eruption of the volcano, Krakatau, seemed to ask: "Why do you human beings kill each other?" and now in Japan, an earthquake, spreading over a region 250 miles wide, kills many and seems to ask the same question.

But men will continue killing each other. They have been doing it for a million years, from the cave to the airplane, and will not stop suddenly.

IN THE CITY of Paris, in a solemn French court, a young lady is tried for "offending French morals." American grandmothers living "far out upon the prairie," will be surprised to hear that the lady is an American girl, of 22, accused of dancing in public, wearing only a small "translucent balloon, and one ribbon," not fastened anywhere in particular.

All sorts of things are dragged into the trial. The lady's lawyer said she represented a beautiful statue, "The Apex of Art." The prosecutor objected: "Statues don't dance; this lady did."

ONE VIRTUOUS person said such nudity was calculated to make French women decide never to have any more babies, and France needs babies. He added that in Canada, where morals are at their highest, the birth rate is also at its highest. Mrs. Dionne proves it.

But gallantry still exists in France. The prosecutor said: "I only want a fine, not prison. Joan, the prisoner, is young, and besides she is pretty. It would be a shame to send her to prison."

What would Puritans have done to her in New England in the witch days?

THE YOUNG naked-dancing lady is arrested at the request of the French "League for the Increase of French Population." How a lady dancing with not enough clothes would interfere with population increase is not clear.

The law-maker in ancient Sparta made a rule that young ladies must wear their skirts split from the waist down to around the interest of masculine youth in female loveliness and with the definite idea of increasing population. Perhaps the race has changed.

IN GENESIS, tenth chapter, you read of Ophir, one of the sons of Joktan, and farther on, in Kings, one, that when Solomon built his temple, and needed fine gold, his Syrian soldiers brought it from the land of Ophir.

As Haile Selassie, present emperor of Ethiopia, calls and believes himself a direct descendant of King Solomon and the Queen of Sheba, it is particularly appropriate that he should be now reopening the gold mines of Ophir. He will not use his gold to decorate a fine temple, but to buy weapons, with which to fight Mussolini, and defend his empire.

It says in the first book of Kings that Solomon's agents "came to Ophir, and fetched from thence

gold, four hundred and twenty talents, and brought it to King Solomon." How many "talents", or good pounds sterling worth of gold King Selassie is getting from Ophir, nobody knows.

The Syrian gold-hunters attracted the attention of the Queen of Sheba, who thus heard of Solomon. But for that gold expedition, she might never have met the wise king, and there would not be any Emperor Selassie, descendant of that pair. In Abyssinia, they say: "It is a small world."

Some wild Abyssinian chieftains to this day have their slaves hunting for gold in dry river beds. That might interest our western gold hunters. Also the fact that rich gold deposits have been found in the Fiji Islands.

WASHINGTON REPORTS a "whispering campaign", concerning President Roosevelt's health. It will be a very small whisper if the whisperers stick to facts. The President's friends will be glad to know that his health is excellent, has never been better since his presidential work began. A constitution able to withstand and conquer such an attack of illness as the President has withstood, need not worry about a few political annoyances.

CONGRATULATIONS to Postmaster Farley, that is, if he is making any money or breaking even on his parcel post. His rates present a cheerful exception to the new era rule, which says: "Make everything dear, and everybody will be happy."

On Monday, your dependent, sending a small package to Norway, asked the private express company, and Mr. Farley's parcel post, what they would charge. The express company would charge six dollars and thirty-one cents, Mr. Farley's parcel post asked two dollars and twenty-four cents. It got the business.

Those that oppose government ownership under all conditions will say: "Ah, but our post office loses money." Perhaps it does, but it sends a letter from Miami to Seattle for three cents and we get the benefit. How much would a private company charge for that?

SENATOR NORRIS, of Nebraska, radical of the right sort, which means a genuine American, celebrated his seventy-fourth birthday yesterday. Plenty young enough to make a good president.

He said he was sure the future would "bring a better democracy" that might easily happen.

Among those from East Brook

Visitors Night Friday, at Camp East Brook, was featured by an evening's entertainment which delightfully entertained a large number of parents and friends of the forty some girls who have been in camp during the past week.

"Pushed Pebbles" an operetta of farm life, which had to do with the untangling of situations which arose over one of the family acquiring a small inheritance, and the resulting haughtiness of herself and 2 grown up daughters to their detriment, was presented, the cast all acquitting themselves admirably, in view of the fact that the girls just had a couple days to learn their parts.

The cast: Rosalie—Nancy McKee; Uncle Bob—Helen Hayes; Mrs. Gable—Beryl Reed; Mr. Gable—Pat Christman; Nick—Jean Davis; Martha—Jean Miller; Mrs. O'Brien—Helene Edgar; Millie—Jean Waddington; Minnie—Claire Brown.

A chorus of Sunbonnet Girls, Overalls boys and Campers added additional pleasures, as the group sang several of their camp songs which were light and catchy. Misses Margaret Hertzler and Betty Glover directed the performance much credit being due them for a pleasing entertainment.

Previously, many of the parents, enjoyed supper with their daughters this privilege being permitted on Friday night only, during the camp period. The group is all in good health and show a deep coat of tan after only a week of camping. They have a full program every day which includes study in handwork, nature and other instruction. An exhibit of some of their work this week was on display last night.

Among the visitors was Miss Cora Ritchie a former resident, visiting in town, who is identified with Hull House, Chicago.

## Plaingrove People Write From Arizona

Have Had Interesting Experiences On Motor Trip Through The West

In a letter to The News, Mrs. Lucy Wallace, of Plaingrove, writes of some of the interesting experiences they have had on a tour through the west.

Her letter follows: "I thought that the friends back home would be interested to know we are still in the land of the living, and although we have had several thrilling experiences, what with having a wheel come off on top of a mountain of about 7,000 feet elevation, and other things."

"We had two flats in the ditch, once being pushed in by a road grader."

We experienced a Nebraska storm on Omaha, a slight San Francisco earthquake, and a gold strike near the Colorado river. Otherwise, our trip has been uneventful. We have been dined and feted many times, but with it all, we are glad that we are on our return journey. We are this side of the Grand Canyon and have experienced the pleasure of seeing the Yellowstone Park, having spent a day and a half there. We also spent a day at Yosemite National Park.

"The first 24 hours we drove 825 miles, changing drivers, of course, and have been averaging between 700 and 800 miles, day and night. Before this trip 50 to 100 miles seemed to be quite a long trip. Our car rides so smoothly, however, that at the end of the day we are not much fatigued. Refreshment and an hour of rest puts us on our feet again, ready to start all over. Irene drove continuously yesterday from 8 a. m. to 11 p. m., with only a few stops. This morning she is refreshed and ready to go again. We hope to reach Pennsylvania in the next few days."

"We have had a wonderful trip, although our guardian angel has been riding on our bumper all the way, both going and coming back."

## On Court House Hill

Friday was divorce court day in the two court rooms of the Lawrence County Court house. Its a sad sort of court and the judges must get well fed up on stories of marital difficulties. One after the other the cases parade past their honors, each with its tale of broken hopes, broken vows and oftentimes broken heads. This wife has deserted her husband after bending a coffee pot over his head, that husband has been spending his money on another woman, and so it goes. Its a court of blasted ideals, where men and women want to take back the "till death do us part" they uttered one day before a minister.

The county commissioners have been popular with salesmen the past few days. Agents of printing companies preparing permanent registration forms have been displaying their wares, but the one getting the business will be the lowest and best bidder. The forms displayed as samples of other cities will have a voters record down for posterity or something. It contains wide information on his life and letters, while on the back are spaces for each election showing his ballot number. The cost of the equipment will approximate \$2000 it is thought but the equipment will last for some years.

It is understood that boros and townships will be included in the permanent registration idea at the next session of the General Assembly. The voters who doesn't cast his ballot for two successive years will have to re-register.

By now the race for the county commissioners' office is becoming something of a burlesque. Each day sees new candidates for the office and in a short time there won't be enough voters left to sign petitions. There will be a large lodge of sorrow held on September 18.

The commissioners appreciate the promptness with which the breaking through of Means bridge was reported. Had it not been reported and closed promptly a pleasure car might have crashed through and serious injuries would have resulted.
